

## Our Nursery Learning Journey

Our umbrella topics allow children to develop key knowledge, skills and vocabulary. All topics have well thought out key texts which ensure progression of story language, sequencing skills and understanding of the key elements of stories. Children have the freedom within these topics to explore themes and lines of enquiry that interest them in greater depth, of which Knowledge Organisers will highlight key vocabulary and knowledge that the children will learn. Our children are supported to learn through meaningful play, a language rich environment and engaging experiences and interactions with others, developing positive character traits. We are passionate about supporting individual children on their own learning journey, appreciating that children have their own unique needs. We therefore ensure that alongside a progressive curriculum, the environment and learning will be personalised for all children throughout the year. The children will develop a love of learning and the skills they need to be confident and curious learners, full of ambition for their own future.

The progression of learning is a combination of; Development Matters, key skills specific to our children's needs and our own school's vision for our children.
