Shapes	Year 1	Summer 1 6 sessions

Background knowledge

The focus for young language learners early in their foreign language learning journey should be on speaking and listening skills. Children that grow up in a bilingual environment learn two languages from birth, but it is still the oral (speaking) and auditory (listening) skills that they develop first. There will be some simple tasks based on these skills at the end of each lesson but nothing too long or demanding.

NB: In Spanish the article (the word for 'the', 'a' / 'an' or 'some') is often used when we would omit it in English. For example, in English we would simply say 'shapes' but in Spanish we say 'the shapes'. The article is rarely omitted in Spanish.

What should I already know?

- Understand how to listen carefully and why listening is important.
- Learn new vocabulary
- Use new vocabulary through the day
- Develop social phrases
- Use new vocabulary in different contexts.
- Learn rhymes, poems and songs.
